

### email, agenda and more. carefree.

with "carefree email" you have at your disposal — immediately and without investment — a private centrally managed professional mail server, with mailboxes, agenda, notes and contacts.

you can keep using your existing domain names and email addresses. implementing the carefree email service is very simple and does not take long. you can start using it right away.

exite "carefree email" is the first perfect companion of the exite "carefree desktop", our centrally managed desktop service. it is also available as a standalone service, you can use it from your current desktop environment.

exite "carefree email" provides a seamless access experience to your central email environment using "outlook 2007" on any desktop. moreover, at all times you can access your mailbox with email, agenda, notes and contacts from any pc or laptop over the internet, through "outlook web access".

no investment upfront. no need to purchase servers and software. you can start using it immediately using your current desktop, laptop, thin-client or any system with an internet connection and a web browser.

the "pay as you go" formula rules out financial surprises. it offers unparalleled flexibility. mailboxes you no longer require can be returned. you only pay for what you use.

### try "carefree email" today

visit our website, or call us for an appointment. we will gladly demonstrate carefree email or provide you with a fully functional trial, with no obligation.

**exite has been successfully realizing ICT savings for businesses for over a decade. now also for you.**
